

The shaking of the IHS with us, allowing the worst of satan's sinful attacks in us, it's terrible, but the Power of the Mercy of Being Love in the Holy Spirit through the IHS is greater, incomparably greater, Absolute.

However, we can continue to live, to create with the IHS Holy Spirit in the Power of Love's Being, to do, to balance ever more gently in the perceived Power, to blend ever more with the Power of Love in spite of the harshest internal and external attacks to continue to live, creation, and that makes me calm - a clear manifestation of the Power that is above all, the immense Power of the Continuity of the Loving Beautiful Creative Wise ... Being. Amen

That is why IHS allows more and more demanding (maybe even more insidious) conditions (internal n. external) in the greatest possible isolation from the world, where we always fail to the POWER of Love, we get upset or **hesitate***(we are not yet fully POWER, only in POWER), maybe even fall (max. on the ladder of the Cross of IHS), but we go, we live, we create, we Balance, we Collect (snuggle) on with Joy Accepting (with a relieved certainty) in Ourselves the Power of Being of Love **and only so we grow in Faith of the Grace of the Gospel of the Cross of IHS** by Perceiving, by Experiencing, by Harmonizing, by Merging with the Holy Spirit in the Ways of Being of Love. Amen

*** In words, one does not calm down (temporarily) only by POWER (permanently). Shaming will not lose us, praise will not add to us - we are dead to the world through IHS Holy Spirit Living G-d, Being Love.**

IHS ad1) IS DOGMA - relieving, directing, supporting Joyful DOGMA.

Not some compromise, or at least a little different, just ad1)

Perceiving of G-d's Power of the Holy Spirit through the IHS. Yes G-d's Power, the Power of Love, the Gentleness and the Strength of the Continuity of Mutual Loving Being. G-d's Kingdom is not in words, but in Power, the Power of G-d's Word of the Holy Spirit through the IHS to which appropriate words and visible states are directed. We perceive more and more this Power in ourselves as something gentle and firm, indefinable, indescribable, independent of all cosmic states (and words) but clearly perceptible, something that holds us, allows us, guides us (that holds atoms, nuclei, particles together). As if something invisible in us but clearly perceptible permeates us more and more despite the violent satanic sinful attacks. The beginning is like Heavenly Bliss, but it is ever more intense, more powerful, All-pervading, like a shield against which everything breaks, like a Rock, overwhelming, invincible, clearly given, awesome Power indefinably subtle and solid, Loving, Kind, Wise, Peaceful, Beautiful, Pure, Joyful, Creative, Humble, ...

The ELMG field also permeates everything, it is clearly perceptible, but inexpressible, not displayable. It can be directly relied upon even without visible structures formed from it such as particles, atoms, molecules, organisms. These only lead us to the field and to the One Who Forms It with Power.

All visible structures are given by this field, or by the One Who Has the Field in Power, and no visible structure can exist by itself, and any limited superficial attacks, whether verbal or seductive, have no chance against this Power. And this is our relief in the IHS

*against the grossest of Satan's wicked attacks. **Praise be to the Lord of the IHS for ever. Amen***

Whoever tastes this Absolute Power no longer wants anything else but to experience It more and more, to grow in It, to be permeated by It, to merge with It as a unique, unrepeatable original, which is only possible through the Gospel of the Cross IHS.

See the Power of Being of Love cannot be expressed by our words, models, ideas ... It is always different and greater (Nesaton), but more and more Perceptible by the Holy Spirit through the Gospel of the IHS.

Without limits (boundary conditions) there is no temperature, no frequency, no energy, no mass, no quanta, no changes, no space at all. So biggest changes (or so smallest or malicious) are powerless (have no chance) to their limits (boundary conditions) resp. to their Originator.
